

Your Treatment Options for Beautiful Skin

Dallas Center
for Dermatology
and Aesthetics

Procedure	What It Does	Downtime	Recommended # of Treatments	Approx. Cost Per Treatment*
Chemical peel (light)	Improves skin texture and treats acne, melasma, and mild sun damage.	Minimal	Varies for each patient	\$125
TCA peel (medium depth)	Reduces sun damage, uneven skin tone, precancerous lesions, pigment abnormalities, and fine lines and wrinkles.	5 to 10 days	1 treatment	\$500 to \$750
Fraxel re:store™	Improves overall texture and tone and minimizes fine lines and wrinkles, scarring, pigmentation irregularities, and skin laxity to some degree.	3 to 7 days	Series of 4, plus maintenance as needed	Depends on treatment area
Fraxel re:pair™	Corrects more advanced photodamage and deeper wrinkles.	10 to 14 days	1 treatment	\$4,500
Clear + Brilliant®	Reduces brown spots, uneven pigmentation, enlarged pores, and fine lines and rejuvenates overall skin tone and texture.	Minimal	3 to 4 treatments, plus maintenance	\$250 to \$350
Intense pulsed light (IPL)	Fades age spots and other pigmentation irregularities, small blood vessels, background redness as seen with rosacea, fine lines, and sun damage.	Minimal	Series of 5, plus maintenance	\$350 to \$550
HydraFacial®	Gently cleanses, exfoliates, and hydrates the skin to minimize fine lines and wrinkles and treat acne, large pores, and sun damage.	None	Series of 4, followed by periodic maintenance	\$150
Microdermabrasion	Gently exfoliates to restore healthy skin texture, treat acne and blackheads, and reduce minor scars and fine lines.	None	Series of 5, plus periodic maintenance	\$150
SkinPen™ Microneedling	Improves the appearance of acne scars and uneven skin texture and reduces fine lines and wrinkles.	Minimal	Most patients receive a series of 3 treatments performed about 4 weeks apart.	\$300 to \$500
Thermage®	Tightens skin, minimizes wrinkles, and tones bulges for your body's problem areas, such as the abdomen and flanks.	Minimal	1 treatment	Depends on treatment area
